

EEE PARTS MANAGEMENT

DPACI EEE Parts Management services include, but are not limited to:

- ◆ Bill of Material (BOM) or parts list review and recommendations for high reliability replacements
- ◆ Parts Procurement at all reliability levels for one component or complete BOM
- ◆ Parts storage and kitting for “just-in-time” delivery
- ◆ Qualification testing, quality conformance inspection of purchased or customer supplied components
- ◆ Screening of components to customer generated or military specifications
- ◆ Obsolete or obsolescent component searches and recommendations for relife or acceptance testing
- ◆ Counterfeit analysis of suspect parts
- ◆ Die banking, custom packaging and test to MIL-PRF-38535 class Q and V (DSCC certified)
- ◆ All component electrical and environmental testing done in one facility, except RGA and radiation

DPACI utilize the existing in-house infrastructure to support all of the services above as the Turn-Key Solution for your EEE Parts Management Program.
